HOW MUCH. Neither rhyme nor reason can express ow much.—Shakspeare.

VEITHER do common words express how much difference there is between the Browning-King Clothing and the "common run" daily peddled to the people. The looks shows the difference, the endurance proves the difference, and these are more convincing than rhymes or reason. Facts do not need eulogising. Truth is true without reason and rhyme cannot tell more than is known. Satisfaction expresses how much there is in a thing, for satisfaction is the end and aim of all seeking. There is more satisfaction in the B., K. & Co. Clothing than any worn, so say the people and the people know. There is no appeal from their verdict, there can be none. They say nothing is so satisfactory as satisfaction. In clothing they get in the B., K. & Co. kind and are

CITY OF MEXICO, Aug. 8 .- Dispatches from Mr. Mizner, the American Minister Guatemala, were expected yesterday. It is understood he has left Guatemala on the United States man-of-war Ranger for Salvador, where he can communicate with Washington by cable. He will probably land at Acaintle. The true in wardness of the reasons for the non-receipt of dispatches from Mizner will then be explained. Mexican papers are very bitter against Mizner, and say he has shown undue partiality all along to Guate mala. The sympathies here are all with Sai vador. The fact is, either Mizner would not answer telegrams from Washington, or else the Guatemaian Government has deliberately

AUBURN, N. Y., Aug. 8 .- It was an unpretentious funeral that occurred from Auburn State Prison at an early hour this morning. What the surgeons had left of the remains of William Remmier had been placed in a plain pine coffin. The coffin had then been filled with quicklime. No clergyman was present, don, held a conference at Ogborns House to-day, at which she formalities in regard to the cession of Heligoland to Germany were con-cluded.

The family of the dead murderer had failed to claim his body and it was to be interred as the law directs. The same secrecy had been observed in the preparations for the funeral that has characterized the whole execution. Nobody was apprised of the hour of its occurrence and the grave, which is in the sixth row, the twenty-first grave in the row, was dug between dark and daylight, being completed at a. m. It was at that hour that the com containing the remains was placed in the drove it. Keeper Miller sat on the seat and that was the extent of the procession. Driving rapidly, by a circuitous route, the wagon the prison. Few noticed it and nobody knew what is contained. Arriving at the graveyard, which is a neglected patch, overrun with wild carrot and a plague spot to the city, the wagon was stopped. The men dis-mounted and, with the aid of two waiting grave-diggers, the coffin was placed in a rough ox and lowered into its place. The gravediggers began at once to fill in the earth, and before people of the city had awakened to the luties of the day Kemmier had been buried. In pursuance of the policy of secrecy denial is

In that mysterious way no prison official can explain, they all knew that the fatal day had come for Kemmler. They were in a constant quiver all day and my keeper had to be very watchtul. These convicts were anxious to know how the execution had passed off because they know we have four men here awaiting a similar doom. You might hang a dozen murderers in the tombs and there would not be a ripple here, but the knowledge that Kemmler was to be electrocuted in another State prison put thesa 1,505 convicts on the ragged edge. This making State prisons a place for executions is all wrong, for it upsets our system of discipline. Had Warden Durston allowed the correspondents to pass through his prison yesterday they would have found the convicts excited to a high degree. I presume Durston did not dare to let visitors in the prison, for they must have had their hands full in keeping order among them. Apart from the uncertainty of killing a man by electricity as was shown at Anburn I have a herror regarding the subject, and I consider It an outrage to put this awful duty on the shoulders of the prison wardens. As was expected the meeting of the committee last evening was an exceedingly animated affair. A large crowd of spectators were on the ground early expecting to see a vote taken on the proposition to levy an assessment of \$3,000 on the two candidates seeking the homination. They were disappointed, however, as the matter was laid over until neat week as well as that of firms the time and arrangements for the primary election and convention. When the meeting opened a wrangle followed the announcement that Committeeman Dutton of the Twenty-exith Ward held the proxy of Doran of the Twenty-exith Ward. Dutton held it, however, and had two votes enevery question. Committeeman Themas Wand opened his eyes when a petition of Sixteenth Ward Democrate was read announcing that he was not entitled to represent that ward insamuch as he had removed to the Twenty-eighth Ward and was registered from his new residence. The Barrett faction wanted him out of the committee and carried their point, electing school Director Macallin in his stead.

Committeeman Fattison of the Twenty-fourth Ward handed in his resignation and it was accepted. Mr. O'Neill's friends wanted Air. D. J. Sullivan elected to fill the vacancy, but the Barrett faction preferred Mr. Gindecker, and the latter won. Mr. O'Neill's friends in the committee protested but in value. tion in the strife. Every candidate who wants to run will have a judge and clerk in the Sixtesath Ward, and the other committeemen, I am sure, will grant the same."

CHAIRMAN BARRETT PLEASED.

Tom Barrett, the leader of the faction now in the majority in the committee, were a broad smile this morning when he put in an appearance in the down-town political haunts. He defended every action of the committee, and said ex-Congressman O'Neill would yet become convinced that he could accomplish nothing by trying to override the committee. He said that every candidate would get fair play and that the cenvention would very probably be held in the latter part of the month. He declined to express any opinion on the probable disposition of the resolution to assess the candidates \$5,000 before the convention. That matter would be acted on at the next meeting.

Can He Defeat Wade?

T. F. Delaney of Springfield, Me., representing the Thirteenth District in the State Democratic Committee, is in the city to-day. Mr. Delaney has decided not to day, Mr. Delaney has decided not to seek the Democratic nomination for Congress in that district, but will urge that it be tendered to Hon. Luke Kelly of Neoshe, Newton County. Mr. Kelly has resided in Newton County for years, and has been elected to office several times. He is an ex-Union solder and a member of the G. A. R. He carries an empty cost-sleeve, having lost his right arm in one of the battles while fighting under the Union flag. Mr. Kelly is said to be very popular in this district, and Mr. Delaney says he can defeat Farmer Wade if he cares to make the effort. Mr. Kelly, who is also in the city, said that he would not seek the nomination but would take it if the party wanted him to run.

Committeeman Glock Holds On. Since the Democratic Congressional Conquestions asked among the Democrats of the Thirteenth Ward as to who is the Congressional Committeman representing the ward in the committee. During the convention there were representatives of two factions of the Democracy representing the Thirteenth Ward seated. There being eight delegates representing the ward; four were for Dan Glock and four for F. B. Pike. It being impossible for the chairman of the convention to name the committeeman, it was left for the ward to decide, and the present Congressional Committeeman to act until his successor was appointed. Hence since Mr. Glock has failed to call an election to settle the controversy he is still the Congressional Committeeman, and from all indications is liable to remain as, as the majority of the Democrats appear to be in favor of his holding the office.

WAR ON THE KNIGHTS.

DISCHARGE OF OLD EMPLOYES OF THE NEW YORK CENTRAL.

The Management of the Read Determined to Get Bid of All Enights of Labor Working on the Bead-Mr. Helland Gets the Cold Shoulder-Prospects of a Sig Strike in Chicago. NEW YORK, Aug. 8 .- Both J. J. Holland and

John W. Hayes of the General Executive Board of the Knights of Labor were expected here yesterday to investigate the trouble be-tween the New York Central Railroad and members of the order, lately its employes. Only Mr. Holland arrived, and he did not reach the city until 3 p. m., having been delayed by an accident to his train. After a conference with members of the Executive Beard of District Assembly 248, who had come from Albany for that purpose, a series of grievances were drawn up. As General Manager and Toucey of the New York Central had left for his home at Garrison, Mr. Holland was unable to present the statement of grievant was unable to present the statement of grievant.

ances were drawn up. As General Manager Toucey of the New York Central had left for his home at Garrison, Mr. Holland was unable to present the statement of grievances to him last evening. In their petition the Knights ask that all the discharged men be reinstated, declaring that they were dropped in violation of an agreement entered into by Mr. Toucey with the freight men a year ago. The petition also asks that the principle of seniority of prometien be recognized as heretofore. Mr. Holland will present the petition to-day if he can secure a hearing. The men admit that Mr. Toucey did not affix his signature to the agreement above referred to, and that no duration of time was specified. Barney Mergan, freman on a switch engine of the Hudson River Railroad, at Poughkeepsie, and Master Workman of the local assembly there, was discharged yesterday. At Albany employes of the road, who are also Knights of Labor, are being dismissed, among those who have received the blue envelopes being Silas Foster, who has been in the service of the company twenty-one years.

GOT THE COLD SECULDES.

The difficulty between the Knights of Labor and the New York Central Railroad assumed a rather startling shape to-day. J. J. Holland of the Executive Beard of the Knights this forenoon made three different attempts 40 have a conference with Third Vice-President Webb in regard to a penceful solution of the trouble. Mr. Webb refused to talk with him and motioned him out of the office. Then Mr. Holland talked the matter over with Mr. Toucey and the latter went to see Mr. Webb. This gentleman remained obdurate. Then Mr. Holland saked Mr. Toucey for the reinstatement of the discharged men, but get no reply. Mr. Holland warned Mr. Toucey that he and Mr. Holland saked Mr. Toucey for the reinstatement of the discharged men, but get no reply. Mr. Holland warned Mr. Toucey that he and Mr. Holland saked Mr. Toucey for the reinstatement of the discharged countred.

CAUSE OF THE TROUBLE.

There are 22,000 men employed by the New York Centrai & Mudson River road in this State, and or these it is claimed that from 19,000 to 20,000 belong to the Knights of Laber. The Knights have active organizations here and in all the sowns and cities along the line of the railroad, and the present treuble among them is agitating all the local assemblies. No threats of a strike have been made directly to the railroad managers, but there are deep mutterings among the men whese friends have been discharged during the past week, as they claim, for the sele reason that they had served on Committees of Grievances and had taken an active part in promoting their organization.

had taken an active part in promosing shear organization.

There had not been a strike of workingmen on the New York Central Railroad for a great many years, and since Mr. Depew has been President the men have been especially quiet and contented. They regard him as a friend of the workingman, and say he has always treated them justly and lent a sympathetic ear to all their grievances.

When Mr. Depew went away this year upon his usual summer trip to Europe everything was lovely so far as the relations between the his usual summer trip to Enrope everything was lovely so far as the relations between the men and the company were concerned. But according to the stories which Knights of Labor now tell, Mr. Depew had not long been gone before the friction began between the managers and the men. General Superintendent Theodore Voorhees, the Knights claim, threatened that he could break up their organization in one year if he had his own way, and would thus, he said, effect a saving to the company of \$200,000 per angum. Apparently his chance dame when Mr. Depew went away early in July, leaving the practical management of the railroad to him, to General Manager J. M. Toucey and to Walter H. Webb, the Third Vice-President.

These three gentlemen had previously been regarded by the men in a friendly spirit, but now they are said to be most unpopular. For a month back the men flave had grievances against the managers and have sent commita month back the men have had grievances against the managers and have sent committees to them seeking redress, which they claim has not been secured. Last week the managers began to discharge the malcontents. Mr. Toucey makes the claim that this is the duliseason of the year and that they have only been weeding out the poor men. The dissatisfied employes on the other hand say that nearly all the men discharged were employed in the passenger department, of which this is the busiest season during the year, and that it is only dull in the freight department, where very tew men have been laid off. As to the "peer men" claim, they say the discharged employes were among the besten the road.

The case of Dennis McCarthy is a peculiar and interesting one, and in the estimation of the Knights of Labor it refutes the assection that it is only incompetent med who are being laid off. He has been employed by the company for many years and twenty-one years ago managed a rear brake on a train of which Theodors Voorhees, now General Superintendent, was the conductor.

CHICAGO, Ill., Aug. 8 .- Carpenters were in session everywhere last night. At 116 Figh avenue the New Bosses' Association met and, avenue the New Bosses' Association met and, after a lively session, removed M. S. Lamereaux from the Arbitration Committee. At 167 LaSalie street the old bosses held a meeting and congratulated themselves on the disruption of the relations between the working carpenters and the New Bosses' Association. The Carpenters' Council met at 165 Washington street, and after a session of three hours announced that nothing had been done. At Bricklayers' Hall delegates to the National Convention held a meeting lasting until midnight. A gentleman who is familiar with the workings of both organizations of employers, and who stands close to certain members of the Carpenters' Council gave as his opinion that a general strike would certainly be ordered on September 1. Outside of routine work the tensire time was spent is discussing the proposed revision of the constitution in committee of the whole. Some changes were made, but they were not of public interest, relating to the duties of fofficers and the manner in which unless may be admitted.

It is expected that ever 50,000 men will march in the processions. The Knighte will hold their pionie at willow springs and the Labor Assembly will have its exercises at Ogden Grove. Elaborate programmes have been prepared for both places including speeches, music and sports.

EVANSVILLE, Ind., Aug. 8 .- A strike o witchmen on the Evansville & Terre Haute yesterday afternoon caused great inconvenience last night. The men struck for the Chicago scale, but President Mackay was not in the city and General Manager Saul arrived, but did not have time to confer with the strikers. The tracks were soon blocked with care. An excursion of 400 persons from Sulliyan, Ind., sould not get out and one of 200 from Oakland City was delayed for five hours. All the passenger trains were delayed two or three hours and no attempt was made to move a freight.

Papin & Tontrup sold 50x180 feet of ground in haplewood, situate on Flora avenue, for \$400 each to John A. Blood, who is going to commence to build a home there next week. Mr. Papin says there are now eight new dwellings in course of construction in Maplewood, which are being built at an aggregate cost of over \$30,000.

L. D. Picot reports the sale of 185x160 feet of

ment. Oak HILL FLACE.

Oak HILL Place, on the east side of the Morgan Ford road, opposite the south center gate to Tower Grove Park, comprising sixty-sight lots of 50x125 feet each, was first put upon the market last May, and since then fully one-third of the property has been disposed of as private sale to parties who have bought lots to build homes on. The low price of these lots, \$10 to \$18 a foot, and their accessibility to the business center over the Union Depot Elsetric Line are the Influences which have made such a brisk demand for the property, and the indications are that the place is going to build upraphily. To-day the Hammett-Anderson-Wade Real Estate Co, sold 100x125 feet in the tract at \$10 a foot, situate on Connecticut between Oak Hill and Bent avenues, to Max Kuger and Martin Svehl.

AMONG THE BROKERS.

Obtained To-Day.

This morning's meeting was the lightest on record, only a single stock being dealt in.

The only sales of the day were made in large amount of stock came out. After 2,500 shares had changed hands no more buyers could be found at that figure, and the price dropped to 44, at which 1,500 shares were sold.

News was received from the Little Albert, stating that the last car load of ore shipped to Denver had netted \$524. No sales of the stock were made, bids being \$24, with the lowest offers at 50.

lowest offers at 50.

The Secretary of the Raymond Co. has just returned from an examination of the properties controlled by the company at Aspen, Cole. This report is of an encouraging character. He states that the tunnel, now driven 367 feet, carries every indication of the nearness of the great ore body. The group adjoining them on the east has struck a valuable ore deposit and the company has determined to commence sinking in the breast of the tunnel. Superintendent of mine writes that "the Raymond' is bound to catch the contact with a shaft, as it certainly dips under the tunnel of the cempany."

of the cempany."

A series of tests are being made at the Yuma for the purpose of ascertaining the cost of treat ing the ore should water be found at the points indicated by the electric diving rod expert, the work of ainking for water being pushed rapidly forward. The stock was 51½ bid at the close; 80 asked.

Elizabeth was somewhat weaker, being offered at \$2.10, and the best bids being at \$2.05. Samoa was 2 asked, 1½ bid. St. Joe was offered at 10.

Can assign no reason for many, did not gamble, and was not a drinking man, did not gamble, and sfer investigation they have come to the conclusion there was no woman in the case.

Mrs. Harris believes her husband innocent in pite of the bad lock of things.

"There must be some mistake," she said to a reporter of a Chicago paper. "He was a most devoted husband and father, and when he left me Saturday I know that he had nothing on his mind. He was in the best of spirits then. He was not in need of money, we had plenty, and his saiary more than provided for as. I don't believe he took the money and never shall."

She would not entertain for an instant the
idea that her husband had transferred his affections. She was sure that there was not a
woman in the case, and was just as confident
that she pessessed his love.
"It was simply a case of steal," said Interestic Strayt, "and inst as sure as he took "It was simply a case of steal," said in-spector Stuart, "and just as sure as he took the money he will be caught. I never knew a dishonest mail clerk to escape yet, and when he is placed behind the bars I den't believe that Harris himself can explain or give any reason for taking the money."

THE address of the Anti-Lottery Alliance of Louisians which appears in this issue should be read by every citizen of the Union. It will arouse the sympathy and support of enough good people to make a success of the effort to rescue that State from the coils of the lottery serpent.

REPRESENTATIVE NORTON of the Seventh Congressional District has been forgiven for the "nickel-flipping" episode in the last convention and secures his renomination without opposition. But the incident caused enough criticism and dissatisfaction among his constituents to emphasize the warning against the "flip" method of getting nominations.

BLAINE sounded the note which united the protection interests and resulted in the election of HARRISON. He is now sounding the note of discontent rampant among Western Republicans with the riding of the protection hobby to death. By the side of BLAINE, REED, MCKINLEY and other would-be leaders appear the tawdry lay figures they really are.

THE willingness of a syndicate of capitalists to accept an ordinance for a gas and electric franchise which reserves to the company only 7 per cent of the net profit shows the progress of the Post-Disparch movement in favor of a business method of granting public privileges. THE PROPOSED NOONAN MACHINE

There are some confiding Democrats who hold that, if the Mayor can turn the Board of Public Improvements into a political machine and work it and its 1,200 appointments for all they may be worth in politics, the plums will all go to Democrats alone and the party be mightly strengthened thereby.

But the Mayor knows too much about political trading to ask the co-operation of a Republican Council in turning that great branch of the public service into a purely Democratic machine. His only hope of securing Republican support for his project depends upon deal with Republican bosses, guaranteeing them a partnership interest in a Noonan machine with a Pohiman attachment-a combination engine warranted to run on either party's tracks, do the switching for certain bosses in both parties, and haul majorities to the ballotbox for whichever ticket the bosses of the combine may determine to elect.

Some members of the Council are opposed on principle to any such scheme. If any Republican members are inclined to go into it they will not do so until the terms of the deal are made entirely satisfactory to them.

A glimpse of how it is intended to work may be seen in the packing of the Eighth District Democratic Committee with City Hall retainers, and the alleged manipulation to keep the district Republican for another term with the understanding that it is to be redeemed by sending the Mayor to Congress two years hence. Nothing can be more fatal to a party than such bossism. There will be several thunder storms between November, 1890, and November 1892, and the Mayor seems to be taking the very course to put himself in the way of cyclones.

THE worst feature of the New York execution law is not the adoption of electricity as the mode of causing death, but the provision requiring the secret slaying of the victim and forbidding newspapers to publish reports of executions. This fine-spun theory of mesthetic capital punishment adds the horror of mystery to a function of government and, in attempting to muzzle the press, proposes a return to the methods of the dark ages, when prisoners were quietly dispatched in deep dungeons. The only reasonable defense of capital punishment lies in its supposed restraining effect upon the lawless elements of the community. While it should not be unnecessarily brutal, it should be openly carried out without restriction as to press publication, so that the people The newspapers violated the law in the public service in doing so.

Under the operation of the Australian ballot law the Democrats elected all the county officers at Chattanooga, Tenn., publican majority of 1,000 was changed into a Democratic majority of 500. The reason given for this change is that many new system. While all tendency to unjustly limit the exercise of the suffrage must be condemned, yet the ignorant voters are usually the elements controlled by corrupt men and a law which legitimately transfers control from the ignorant and venal to the intelligent and honest voters of a community is a good one. The stimulus to gain education is increased when education brings with it the freer exercise of the suffrage right.

WHEN the lottery fight first opened it seemed that the lottery ring had managed to muzzle the Louisiana branch of the Associated Press service. But the POST-DISPATCH sent a special correspondent to the scene and put an end to the game of suppressing and coloring the telegraph news in the interest of the ring. Now the Associated Press sends out the two-column appeal of the Anti-Lottery Alliance to the people of the United States. The ring can no longer do its villainous work in the dark, and its fate is scaled.

ONE reason alleged for the remarkable Democratic victory in the county election at Chattanooga, Tenn., is that ignorant negroes were unable to vote under the Australian ballot system. Perhaps another reason is that the secreey of the ballot enabled many negroes to vote the Democratic ticket without fear of abuse from Republican bosses or proscription on the part of their own race. The effect of the secret ballot may be another form of negro emancipation - freedom from slavery to party.

The City Flooded With Pictorial Depravit by Irresponsible Men—Susp Shots That Call for a Rope's End—Inspector McAfee Makes a Capture—A Trunk Full of Vile

A professional photographer, speaking of the discovery by the Anthony Comstock of the West, Inspector McAfee, of an obseen picture factory in St. Louis, said to-day: "In spector McAfee would do more good if he would turn his attention to the amateurs, who, since the easily managed detective cam loses sight of this material view of the matter. The amateurs having nothing to risk, having a camera, need only to find the subjects and take the views. When the detective cameras were introduced they were very pretty toys and last six months that I have known of the great misuse to which these toy cameras are put. They do not use plates in them, but a film long enough to take twenty, thirty, fity or 100 pictures on. This film is in a roll, and when is has all been exposed the of whom I speak have any knowledge of photography. They simply point their

button. When they have used up a roll of film they take it to a professional photographer of development.

COVERED WITH OBSCENE PICTURES.

'These rolls are in many cases covered with obscene pictures taken in infamous places. The owner of the camera frequently wants large humbers of copies made from his viie collection, and I regret to say that there are men in the business who will do the work for them. They do not find any lack of subjects. Few of the deprayed creatures to whom they go for poses object to a pnotographic register of their bestialities. The copies they secure are very widely circulated. I have seen boys with large collections of this class of work. There does not seem to be any restraint but upon the circulation of the picture. The town is full of them.

"Not only that, but these men do not step at photographing notorious women. Their small cameras, easy to conceal, are used to obtain pictures of respectable girls and women who inadvectently leave a window of their ascepting chamber or dressing-room unclessed, or through any accidental means place themselves in a position to satisfy the snap shot catcher. I have seen pictures of respectable women, caught in such manner, circulated with the obscene pictures I have speken of. There seems to be a cress for this kind of the work on the part of the series.

de eatcher. I have seen pictures of respectables women, caught in such manner, circulated with the obscess pictures I have speaken of. There seems to be a create for this kind of work on the part of the sort of amateur I have been talking about, and not only Inspector McAfee, but the police ought to interest themselves in at least suppressing the circulation of the photographs."

The obscene picture factory discovered by McAfee was owned by Wm. Grimm and was at 25414. Olive atreet. Not only was Mr. Grimm engaged in the manufacture and saie of obscene photographs but he developed and printed pictures of the same sort for amateur such as are referred to above. One hundred and fitty pictures were left with him vesterday morning by quite a well-known physician to be printed, and Mr. Grimm admitted that he had done a great deal of that kind of work. But the inspector did not go after him on that account. He charges Mr. Grimm with faving savertised his wares by circulars sent through the mails, and so rendered himself Hable for the payment of a fine of \$5,000 or to be imprisoned for favy years.

Mr. Grimm's case has occupied the Inspector's attention for some time. The clue to him was found in lows, where a man arrested with some of the obscesse photographs in his possession. Exposed the source of

The efficers went to this place and arrested him. He at first depled that he had any obscene pegatives, but finally turned up a trunk containing a large number. This steek, with a number of printed piecograph, was taken possession of by the Inspector. Grimm was taken before United States Commissioner Crawford and gave bond in the aum of \$2,000 to appear to-morrow for examination. He denies that he ever sent any of the pictures through the mail. His arrest was a great surprise to a large circle of acquaintances who had great candidence in him. He has been chiefly remarkable among his acquaintances for his gastronomic ability. He is said to have eath an plece of bologna sausage two feet long and an inch think at one sitting, and to have consumed on divers other occasions unmentionable quantities of cysters, etc.

He is married and has grown children. One daughter is in his photograph gallery, out the bnew nothing of the litegitimate part of his business.

She was one of those slight fairy-like girls with a complexion, white and soft, but with just the slighest tint of, pink in her cheeks. Her dress was of white airy material and she wore a white mul hat, so light it seemed as thought might hoat on the air. She started to wall by Judge Taity, but as she reached a point almost in front of him she turned and will her face rosy with blushes asked: "Inn't this Mr. Taity?" She was told her guess was correct. THE STRANGE SEQUEL TO AN OLD PHILA-DELPHIA SENSATION.

NEW YORK, Aug. 8.—The WORLD has the taking ways—and everybody remembers his escapade with a woman—a wife—and its usual result—the condenation of the man's offense, the denunciation of the woman's. Now comes a story from over the sea that Charile Thorne's daughter Shirley, a slip of a girl not quite 15 years old, has been married to the man on whom the woman had cast her for peacefully and happily in Geneva, Switzer land. The axiom of "like father like son" finds an illustration here, but with a change of sex, in "like mother like daughter," for the inclination of the child-wife towards the famous for the stand he took in the abolities riots a few years before the war of the rebel lion. Miss Swift was beautiful both in fac and form. Of superb carriage, vivacious, and form. Of superb carriage, vivacions, intelligent, a student in belies lettres, she attracted very many admirers in that parsicular set in which the Binnes, the Cadwaladars, the Sergeants and the Frinces moved. To this Mrs. Brown strenuously objected. Her husband insisted, the wife protested, until at last the quarrel beams so bitter that Mrs. Brown excitained: "When you bring your astar friend in the front door, i go out at the back!"

Determined to have his own way, Brown took his wife at her word, and said she could go when it suited her, but once out of his house, she should saver return. Only then did Mrs. Brown give tearful obedience to her husband's wishes and Charlie Thorne came to dinner. The result was disastrous. The actor's personal magnetism, his wit, his eleverness at repair es and his adroitness in the art of delicate compliment soon changed the young wile's notions of actors. In a week Thorne was making love, in a formight his leve was returned, and in a month be had eloped with the wife of his friend. She took her two children with her. Each incoming train brought from a dozen to thirty Masons, all ready and eager to take part in the work of the evening, for the edict

ological Seminary at Dubuque. The professorship was twice tendered him before, but he was reluctant to leave his congregation and declined both offers. The matter was pressed on him so carnessity a couple of weeks since that he concluded to accept it. He will shortly leave for Dubuque to enter on his new field of labor. His departure will cause much regret among the German Presbyterians and the Presbyterian elergy generally. He has been actively identified with Presbyterian church work in this city for fully twenty years, and did much tewards extending that faith among the Germans. He has always taken a prominent part in the meetings and discussions of the ministers displaying in every instance his ability as a speaker and theologian.

The resignation is in the hands of his congregation, but no steps have anyet been taken to fiff the vacancy. It is not considered probable that he will reconsider his action.

After work the lodge was called from labor to refreshment, and soon all the visitors were engaged in feasting on the good things provided by the Highland brothers. Highland Lodge simply spread herself and as usual kept up her usual reputation for open-handed hospitality. It was a very late, or rather early hour, when the brothers finally separated, and all were unanimous in their praise of the splendid treatment received at the hands of the Highland Lodge. The supper was served at Hotel Zimmerman, and reflected great credit on the proprietor and his wife. On the second Wednesday in September, Greenville Lodge, No. 245, will conter the M. M. Ransom Post Leaves the City for the Grand Army Encampment.

At 2 o'clock this afternoon Ransom Post, G. . R., assembled around the Grant statue on I welfth street, preparatory to the march to the depot and flight to Boston. There were 170 men in line, nearly all dressed in bright new uniforms, with shining brass buttons gold cord and tassels and white gloves. All carried canes and went through a drill under Maj. H. M. Pollard. At 2:30 o'clock, when all the comrades whe were to attend the encampment reported, the veterans marched to the Union Depot preceded by the Arsenal Band. The band will accompany Ransem Post to Boston and will precede it in the parade. It is needless to any there will not be a single post in the parade wish better music, and as for appearance in the ranks, no post in the country can claim the honor of cellpaing the Ransem Post of this city. The veterans lost no time in finding their places in the long train of nine coaches on the Bee Line track. There were about seventy-five laddes in the party, most of them wives and daughters of the veterans, who are members of the Woman's Relief Corps and are going to Boston to lend tone and beauty to the occasion. The train pulled out at 3:30 o'clock amid the cheers from the crewd of friends who went to see the party off.

To morrow afternoon at 3 o'clock the Department of Missouri, escorted by Frank P. Blair Post and accompanied by delegations from Scott, Shaw and Hassendeubei Posts, will leave on the Wabsah. Ransem Post will arrive in Buston Sunday and the second train will arrive Monday noon.

How a Young Man Attempted to Settle as Old Gradge,

SPRINGFIELD, Mo., Aug. 8 .- An article aphas ereated a breeze of some magnitude in this city. According to the article, some Sun days ago R. P. Diekerson, a young banker o this city, in company with Walter Hubbar and Will Atkinson of Kansas City went to Ozark to meet some capitalists, in compan with whom they were to visit a cave for th purpose of considering the propriety of making a summer resort. After they had regis ing a summer resort. After they had registered at the Taylor Hotel two women same and registered from Springfield. From subsequent developments, supported by affiderits, it was shown that a certain young man who, in apite of Dickerson's opposition, had married a cousin of the latter, to get eyen with Dickerson, had sent these women, both of questionable reputation, and had circulated a report in Ozark that they had come on invitation of Dickerson. It was also reported that Dickerson intended to take some society young ladies of Ozark to a picule, and that the women were to-follow and, after reaching the cave, which they had started to visit in the first place, there would be a wine supper. The rumors caused great indignation and Dickerson was attacked in the hotel by a crowd, barely escaping with his life, Dickerson's friends are very indignant at the attempt to play such an outrageous trick upon him through motives of revenge.

mitted to the Senate an amendment in the shape of a substitute for the bill reported by Mr. Evarts from the majority of the committee a few days ago, to enlarge and make the Circuit Courts of the United States Courts of Appeal, and to limit the jurisdiction of the United States Supreme Court in some directions. The substitute reported by the majority te-day proposes to make any three judges of the United States Supreme Court constitute a quorum to hear and try causes and render decisions. It also provides that separate divisions of the court, may direct a hearing before the full court of matters before them which involve questions of unusual difficulty and importance; causes pending and which may hereafter be pending in the United States Supreme Court, in which are involved questions arising under the Constitution of the United States supreme Court, in which are involved questions arising under the Constitution of the United States supreme Court, in which are involved by Senators Edmunds, Ingalis and Vest, in which, criticising the previsions of the majority's bill, they question the wisdom of exceluding from review by the United States Supreme Court of all cases brought by citizens of different States, allens, etc. The constitution the constitution of the United States should have an equal right to take the judgment of the highest court of the union upon his particular case, be it greater small. Leaving final decisions to nine different Courts of Appeals, as proposed by the majority, the minority think, would produce results quite different from and out of harmony with each other, a still greater accumulation of undisposed causes in some circuits, and while the majority in his cale and his premise of the United States. The minority, "with the greatest respect for the majority," submit their scheme, which they believe will enable the United States.

The Sentence in the Gray Court-Martial at New Orleans.

NEW ORLEANS, La., Aug. 8 .- On the 24th Jacob Gray, the Post Department Commander of the Departments of Mississippi, Alabama and Louis iana, Grand Army of the Republic. The proceedings were necessarily secret, and martial was the result of the ill-feeling which was manifested between the two factions in the ranks of the Grand Army of the Republic on the occasion of Jefferson Davis' death. Capt. Gray, then Department Commander, turned out in the funeral precession to do honer to the dead soldier and statesman. The Commander was determined to make the recalcistrant members of his command make amends, and chartered nine colored posts, comprising about fifty members, and said that if they (his opponents) would not parade in the Davis procession they would be made to walk side by side with the negroes. As a result two sets of officers martial was the result the President to convey to the widow of that eminent man such desire, tendering her, on behalf of the nation, all necessary facilities for such removal and interment, was taken up and agreed to.

The conference report on the fortification bill was taken up for consideration.

To Capt. Jacob Gray, New Orleans:
The Commander-in-Chief has disapproved the seatence of court martial in your case.
G. W. HOPKINS, Adjutant-General.
The Captain was seen in relation to the above and was exceedingly jubilant over the receipt of the good news. Capt. Gray said:

Jus question was ordered on the metion is motion to recommit was lost, yeas, yea, 150. The bill was then passed.

THE CLUB DISEANDED.

This dispatch disapproves of the sentence of the court-martial. If Gen. Algor disapproved of the proceedings only he could have ordered a new trial, but his disapproved of the sentence virtually shuts out the entire trial. I don't know what the sentence was that was arrived at by that body, but it seems, whatever their opinion was, they have over-reached themselves. The court was composed solely of my enemies, at whose hands I could not get justice."

The matter-will come up before the National Encampment, which will be held on the 13th and 14th inst., in Boston.

RIOT IN A PRISON.

Convicts in the Charlestown (Mass.) Prison Revolt.

BOSTON, Mass., Aug. S .- The convicts in the Charleston Penitentiary have been grumbling for some time past and objecting to the Ber-rillion system of measurements. At 8 o'clock yesterday afternoon the trouble broke out violently. The convicts in the shoe shop refused to go to work and, upon some pre-arranged signal, set up a yell and began smashcommittee to bear the request to them. It was done and the gentiemen withdrew from the cast and the club and Miss Kate Mayers, the leading lady, went with them. The two factiens are new at work orcanising and instead of the one club there will be two.

Terrible Hail Sterm.

Montevied of Minn., Aug. 8.—A terrible hall storm occurred here last evening. Reports from the northeast, six miles out, say that all standing grain was destroyed. From the southwest, five miles out, total destruction is reported, while from eight miles southeast crops were badly damaged. The storm was hartwested, consequently the loss is not quite so great.

BY A DEADLY HUG.

How a Raccoon Killed a Bull Terrier in New York State.

That a raccoon is the smallest representative of the bear family is a fact very well known to naturalists and generally set forth in dictionaries, but according to the New York nize the relationship. Silas Barnes of Newburg, who for twenty years has earned his living by selling small furs and rattlesnake oil, after half a lifetime of doubt was finally convinced at dawn the other day that the familiar 'coon is a true ursa minor, and his eighteen-pound bull terrier learned the leason at the same time, but too late to profit by it

eighteen-pound buil terrier learned the leason at the same time, but too late to profit by it.

The hunter and his deg had passed the night in the woods at the foot of Storm King Mountain, on the Cornwall side, and at daybreak Barnes "treed" a 'coon in a tail pine. He never carries a gun, because he says it frightens the game he wants to catch, and besides, he hasn's one. He climbed the tree and drove the 'coen down, noticing as it passed him that it seemed to be considerably more bulky than his deg. Then he sat upon a bough about thirty feet above the ground to watch the sport.

about thirty feet above the ground to watch the sport.

He saw the terrier seize the 'coon by the throat. The shaggy animal made a desperate effort to release itself. Failing in this, it stood upon its hind feet, and, throwing its strong forelegs around its enemy's body, it gave him a deadly hug. The dog's eyes buiged, and so did those of the hunter, fernever before through a long experience as a woodsman had he seen anything like this. He went so rapidly to the rescue that he fell the last ten feet, but he was too late. The 'coon was gone and the terrier was gasping his life away. The blood that welled from semiernptured organ filled his mouth, his back was budly lacerated and in a few minutes he was

The squeeze of the little bear had been more MRS. MACKAY'S CONCERT.

Princess Louise Came Late and Ordered the Programme Repeated. From the Boston Herald.

Last week Mrs. Mackay-whose name be spoken in praise only—gave a magnificent concert in honor of Princess Louise. To say that expense was consigned to the nethermost region is to put it mildly, as Mrs. Mackay never does anything by halves, but the royal guest never appeared until 11:45, when the concert had commenced after long delay. Princess Louise, who has a genuine love for music, if no consideration, calmip begged the programme might begin over again, as she particularly desired to hear Mile. Zelle de

particularly desired to hear Site. Zelle de Lussan sing.
Of course a royal wish is always granted, and the artists good naturedly compiled with the request. About 4 o'clock in the morning the affair terminated, to everybody's relief, when it was immediately put on record as the longest musical session of the century. Only a Wanner opera given at Beyreuth could ever have beaten it.

What a Zing Zang Is.

From the Indianapolis Sentinel.
"Zing zange" are very popular with the colored citizens. A "zing zang" is one of the most unique entertainments of the age. Every vestige of furniture in the room where one is
to take place is removed before the "zing
zang" begins. Tailow candles are then stuck
in the wails, and everything is ready. A darkskinned son of Africa then leads the girl
whom he loves best out into the middle
of the room, and the assembled guests
form a circle around them. "Scratch
gravel?" yells the aforesaid offspring of the
Dark Continent. At the same time he and his
partner begin an animated double shuffle,
keeping time to the patting and stamping of
the hands and feet of the crowd that surrounds them. Offentimes a single couple will
keep this peculiar dance up for a half hour
without once pausing during that time. In
fact, they become se excited that they seldom stop until beth are wringing wet with
perspiration and almost ready to fall to the
floor from sheer exhaustion. One couple no
seconer withdraws than another takes its
place, and the scene is repeated. vestige of furniture in the room where one is

From an Exchange.

Present indications point to the probability of the eventual establishment of central sta-tions for the supply of brine, cooled below the freezing point, which will be carried under the streets in pipes, as steam now is. Ice
can then be made in private houses, and by
using water which has been previously belied,
danger from disease germs contained in los
gathered from impure sources will be
avoided. The cooling of dwellings in summer can then be effected with as much esse as
heating now is in winter. Mechanical refrigeration has been successfully applied in the
laying of piers for bridges, where treacherous silf and quickeand thwart all attempts to
excavate by ordinary methods; the semifluid material at the onisson is frozen by the
application of pure brine, and removed while
still solid.

ST. LOUIS MARKETS.

Wheat—A decided change in the character of the news made the trading crowd incline teward the selling side this morning. All the cables were weak and generally lower-both from the Continent and England, and they all reported fine weather and harvesting progressing favorably. From the Northest came it at small the damage had them creatly oversity in the state of injury to apring wheat came a stragging in showing that the crop care ghost had not been laid by any means. The Kansas State report on the yield of wheat was better than anticipated. Our own receipts top up to proportions that were discouraging to those who have been looking for them to drop off, though they were still considerably below last year"s. And every other market was lower and showed great weakness. There was not so much wheat foesale at the opening but there was a scarcily of the great weakness. There was not so much wheat foesale at the opening was a face of the proportion. The price lung around believe to gother the store of the price lung around believe to gother the second and imports of export beying in New York and Chicage kindling builtens, but then took a guiden upward shoes, the large clearances—9,000 pkg four and 22,000 be. It heatiests around the and 685 for a while, but either markets break off charply on late cables, which came in lot a lied twee. This carried the was too and the price up to the charge in the second of the price up to the charge of the price in New York and Chicage kindling builtens and the price up to the price in New York and Chicage kindling builtens and the price up to the price up to the price in New York and Chicage kindling builtens and the price up to the price and the price and the price up to the price and the

SCHOOL BOARD NEWS.

The Building Committee Adopts a System of Heating and Ventilating.

Mr. Singleton's knife is not the proper spur to School Board legislation, but it worked effectively on the Building Committee, which now has solved a knotty problem. The system of ventilation has been the cause of much wrangling and the ventilation of new schools will continue to worry the committee for some time, but the row between Mr. Singleton and Mr. Lee was over the system to be adopted in an addition, and every time an addition was ordered the danger of another outbreak was imminent as soon as the question of heating and ventilating arose. When the quarrel on this score became so bitter that the Supervisor drew his knife on the Chief Engineer the committee came to the conclusion that it was time to come to some definite determination concerning this work in order that such disgraceful scenes and dangerous disputes should be avoided. So they have decided that in the future the system of ventilating and heating the addition shall be the same that is in use in the old school to which the addition is built. It is expected now that Mr. Singleton and Mr. Lee will be able to carry out this plan without knives, and resting on this belief the School Board will take no notice of the acens in the committee-room.

A strong effort has been made by the colored population to secure an improvement of the No. 4 School, and an addition for the overflow of pupils who last session occupied rented rooms which the principal said were not suitable for school purposes. The Building Committee is opposed to putting up an addition and will probably meet the demands by turning the Chouteau School, two blocks west, over to the colored children and building another white school further west. This would amply provide for the colored children, and the new white school, moved a few blocks west, over to the colored children and building another white school, which are now very much overcrowded.

The Building Committee will meet this afternoon, but unless there is a cutting scrape it will be rather an uninteresting meeting. will continue to worry the committee for ne time, but the row between Mr. Singleto ternoon, but unless there is a cutting scrape it will be rather an uninteresting meeting. The accounts will be audited.

A confidence game in which the victim dis played a degree of verdancy even greater that named was played yesterday upon a country lad of about 19 years and halling from Pana III. He had started out West with visions of wenith to be gained and \$40 in greenbacks. At the Union Depot he met another young man who had similar aspirations and who was singularly enough going on the same train. They quickly became friends and boarded a west-bound Missouri Pacific freight and rode out to Kirkwood, where the stranger suggested they get off and get a lunch, and also that as a measure of precaution he had better take charge of the \$40, as Kirkwood was a very tough town, full of pickpockets and fobbers. They both wandered around until 10:05, when the \$t. Louis train leaves Kirkwood. At this junction the stranger suddenly jumped aboard the train after it had attained quite a rate of speed and left his astonished victim standing on the platform.
